

# Join us for a **Wail** of a time!

**Announcing...**

the new **Town of Slave Lake**

**Siren**

## **When** will I hear the siren?

- For regular 'growl' tests: the second Thursday of each month at 12 noon for 20 seconds.
- Annually for a thorough test during Emergency Preparedness Week on Thursday at 12 noon.
- If there is an emergency that requires you or other residents and visitors to take action.

## **Where** can I hear the siren?

- You will hear the siren in most areas of town when you are outside. It is not meant to be heard inside.
- The siren is located at the Government Centre building. The sound will be the loudest at the centre of town.

## **What** do I do when I hear it?

- If it's noon the second Thursday of the month and the siren sounds for just 20 seconds, then no action is needed. It's just the monthly test!
- If it's for the annual test during Emergency Preparedness Week, it's a good time to set up your 72 hour survival kit: [www.getprepared.gc.ca](http://www.getprepared.gc.ca)!
- If you hear the siren any other time (intermittent or continuous), check out the safety instructions.

## **How** do I get safety instructions?

- Listen to 92.7 Lake FM radio
- Check Cable TV Slave Lake
- Check our website: [www.slavelake.ca](http://www.slavelake.ca)
- Check [www.emergencyalert.alberta.ca](http://www.emergencyalert.alberta.ca)
- Check the Town of Slave Lake Facebook page
- Check our twitter feed @TownSlaveLake

**Then...** follow the instructions!

The siren alerts you to potential and immediate emergency situations that need your attention. It is one of many ways the Town of Slave Lake will alert residents of emergencies.

**Find out what the siren sounds like!**

Follow the siren link on [www.slavelake.ca](http://www.slavelake.ca) or scan the QR codes for a wail or steady siren sound

**Intermittent siren** = Some or all residents prepare to evacuate

**Continuous siren** = Some or all residents must evacuate
